APPENDIX  
(Sec Rule 6)

FORM – 'A'

Form for seeking prior approval under section 2 of the proposals by the State Governments and other Authorities

PART – 1

(to be filled up by user agency)

1 Project Details

- (i) Short narrative of the proposal and project /scheme for which the forest land is acquired

**Proposal:**

In the last decade, Since the poplatino is increasing drastically,the Pune city has really started to suffer from the lack of public transport and poor infrastructure, It recognized the dangers of increased motorization, far before the explosive growth in vehicles started and before the ideas of sustainable transport were widely accepted. It had proposed a High Capacity Mass Transit Route (HCMTR) as an access-controlled, public transport only ring road, with essential facilities for interchange between road and rail is proposed along 34 km length. It has a width of 24m and some where it is 12m which was sanctioned in Development Plan of 1987 of pune city.

The alignment shown is not a closed loop but with the utilization of existing roads and road widening, the loop can be made a closed one.

The route is aligned as a ring to run from the Khadki Railway Station,along the eastern boundary of the Pune University Complex, Senapati Bapat Road, by the side of Hanuman and Law College hills, across SNTD hills, over the nalla through Ganesh Nagar up to the Dattawadi Bridge, along or over Ambil Odha, the Mutha right bank canal upto the Pune Cantonment limits,

through the cantonment area and via Lulla Nagar, Netaji Nagar, SRP area, across the river entering Wadgaon- Sheri and via viman Nagar, Central Jail upto Alandi Road within old PMC limit.

The route is proposed to be used only for operating the mass transportation system and hence it will be connected to the existing or proposed road network only at selected interchange points. This route would be developed to operate the rapid bus transport system initially and converted progressively to operate the higher capacity systems, such as the trolleys, trams, monorail and finally the rail based rapid transit system.

The alignment has been designed accordingly to suit the operation of the rail-based system

|-------|--|--|
| (ii)  | Map showing the required forest land, boundary of adjoining forest on a 1:50,000 scale map | Essential map attached on Page No.   |
| (iii) | Cost of the project  | Total Cost of the Project Rs 447.60 Crores   |
| (iv)  | Justification for locating the project in forest area                                      | The other all possible alternatives were examined by us the alignment of HCMTR is designed keeping the views of topography.. The Project of HCMTR alignment Cross the forest land, there is no alternative non forest land available for this purpose<br>So we have decided to take necessary permission Under the provision of forest (conservation ) Act 1980, Hence this proposal is submitted for necessary clearance. |
| (v)   | Cost-benefit analysis  | Not Applicable   |
| (vi)  | Employment likely to be generated  | During Construction approximately 400 construction personal will work at site  |
| 2     | Purpose-wise break-up of the total land required   | Total forest land required = 7.1805 ha   |
